Gelignite and Dynamite

In cases of 50 lbs. 22, nett weight

Gelignite is a new and very powerful explosive. Besides producing a powerful blast, it is also used for use in this country by reason of the fact that it is not so liable to injury as the ordinary dynamite. The latter, when once ignited, is liable to explode, by its use, and more especially when operating in confined places.

Also, in the manufacture of dynamite and the patent use. For full information and prices, apply to the Agents for Brazil:

FELLOWS' HYPOPHOSPHITES
THE GREAT TONIC AND STRENGTH GIVER

This medicine invented in Canada in 1865 has
been for years and is now prescribed by the lead-
ing physicians in all parts of the world, who attest
that it gives the most satisfactory results of any
remedy yet produced. The diseases for which
they use it, and in which they claim the greatest
results are the following:

Lung Diseases, Imperfect Nutrition
Nervous Diseases, Dyspepsia
General Debility, Anemia
and in convalescence from all wasting diseases.

The immediate beneficial effects of FELLOWS'
SYRUP in those cases of emaciation and weak-
ness produced by long illness whether from
pulmonary diseases or fevers, prove its tonic
virtues and its value in accelerating digestion and
assimilation.

FELLOWS' SYRUP is too well known to
require further remark; it cannot be closely imitated
though many persons have sought to trade upon its
reputation.

Full directions accompany each bottle.

BUSINESS NOTICES

Shade Rollers.—The Hartshorn spring shade roller is known far and near, and its merits are constantly securing for it a wider field of action. This roller is manufactured by Stewart Hartshorn, East Newark, N.J., U.S.A. Mr. Hartshorn has issued a souvenir catalogue telling about the growth of the business and its present condition, together with a profusion of illustrations of his main and branch offices, exteriors and interiors of his factories at East Newark, N.J., and Muskegon, Michigan. In one edition the catalogue, the last five pages are devoted to reproductions of medals taken by the Hartshorn rollers at various expositions, and in another edition this same space is devoted to illustrations of different styles of brackets. This new catalogue, in both editions, appeared on the first of January and is ready for gratuitous distribution. It can be had by anyone who will address an inquiry to Stewart Hartshorn, East Newark, N.J., U.S.A.

Photographia Alemã.—This is the excellent establishment of Mr. M. Ribeiro, successor to Messrs. Alberto Heintzel & Co. at No. 8 Rua dos Ourives. The quality of work done by this house is superior. The artistic photographer invests his productions with a living reality. His art reproduces not only the mere outlines but transfers to them, too, the spirit of the subject. The result is a photograph which evokes admiration and is perfectly faithful to nature. Such is Mr. Ribeiro's work. His portraits in oil and crayon are above criticism. Photographs are made by all systems, and orders are taken for work outside of the gallery. You find here a complete collection of pictures of eminent characters in politics, literature, art, etc.

Furniture and Carpets.—Mr. Henry Kingston, at No. 8 Rua dos Ourives, has just received a large inventory of beautiful furniture for parlors, sleeping-rooms and dining-rooms. He has also added largely by fresh receipts to his stock of special upholstered and fine wicker furniture of rich designs and new styles. All the furniture he offers to the public is particularly adapted to this climate and made of the best wood. In his spacious store-room he displays sofas, reclining chairs provided with every device of comfort, tapestry, curtains, window ornaments, an extensive variety of carpets, mats, hassocks, oil-cloths, quilts, mattresses, in fine everything to be found in a complete and first-class stock of furniture and carpets. The upholstering department is a special feature of this establishment, and the work that comes from it is done in the most substantial manner. He also makes a specialty of receiving orders to be filled direct from Europe.

Chahubyna Ink.—The Chahubyna ink is one of the most desirable writing fluids ever offered to the public. It is the invention of Dr. Cunha Sales, who prepares it by a chemical process from the Chahuby, a tree of the Pernambuco woods. All who have tried it unanimously endorse it as an ink without a rival for its manifold excellent qualities. Its conspicuous qualities are: It dries rapidly, dispensing with the use of blotting-paper; it resists the action of water, so that writing can be wetted and rubbed without injuring it; it writes as well on moist as on dry paper; it does not oxidize a steel pen. Chief of all it is an indelible ink and ensures the perpetuity of written documents. Time does not obliterate it and no acid can remove it, thus

preventing the alteration of writing. It is an absolutely clean ink and serves as well for copying as for ordinary writing. The salesroom is temporarily located at No. 230 Rua da Alfândega, sobrado.

As Grao-Turco.—This prominent establishment of Messrs. Estella & Co. at No. 64, Rua do Ouvidor, is replete with a splendid assortment of goods particularly suitable for the holiday trade. Their stock of objects of art, children's toys, toilet articles and articles for salons, perfumery, &c., is complete and can not be equalled for infinite variety, quality and elegance. An examination of this vast collection of novelties and useful and ornamental articles can not fail to discover something that would make a fitting present. A special exposition of fans of all kinds from the ordinary to the most highly ornamented and richly designed, is made every Saturday and should be seen. The prices are plainly marked and are half those of any other house.

Companhia Grande Hotel de Petropolis.—This company owns the two principal hotels in Petropolis, the *Bragança* and the *Olema*, provided with every desirable comfort for guests and with the service of first class establishments. The Hotel *Bragança* is situated at Nos. 21 and 23 on the Avenida 13 de Novembro, a broad and attractive avenue. The Hotel *Olema* is at the base of a little mount, fronting the Praça D. Afonso and with the charming river Quitandinha flowing at its side. Both hotels have pleasure-pharons for excursions in the romantic scenery of the suburbs and carriages to convey passengers to and from the railroad station. This is the season of the year to bear in mind that Petropolis is considered by hygienists to possess an *Alpine climate*, or the climate of a high altitude, which ensures its entire freedom from the prevailing diseases of the summer and establishes its character of a veritable health-resort. The two hotels described are recommended as the largest and most fashionable in Brazil. In Rio de Janeiro the company has an office at No. 28, Rua de S. Pedro where you will be courteously furnished with any further information you may require.

RIO DE JANEIRO, FEBRUARY 2nd, 1892.

The action of the superintendent of the São Paulo railway in running a special fast train for the accommodation of Santos business men who may wish to sleep in São Paulo, will be cordially applauded everywhere. Sleeping outside the plague-tainted atmosphere of Santos may not afford sure protection against fever, but it is surely a benefit and may be the means of enabling many to bear the strain much better than they otherwise would. As long as a man can obtain a good night's rest he will be better able to bear the depressing influences which the heat and work of the day impose upon him. Santos is not a cheerful place at the best of times, and were it not for the "Barra," where the fresh sea breeze gives back much of the vigor expended in the town, life would be almost unendurable there. In such a time as this, however, the overtaxed business man needs more of a change than the Barra can afford, and this opportunity to pass the night in São Paulo is just what he requires. Now that the step has been taken, the question arises—why has it not been done before? With such means of communication, São Paulo is not farther from Santos than Petropolis is from Rio. If now some enterprising hotel-keeper will build a comfortable hotel at some convenient point on the *seara*, not only will the benefit be appreciated, but we feel sure that the enterprise will be successful. Surely the Santos *seara*, with its many picturesque localities, its abundance of pure water and its many opportunities for healthful recreation, could easily furnish such a site within one hour's ride of the city.

The fall in Brazilian securities in London during the past few days is probably due to a combination of circumstances, some of which may not be known to us here. It is a very pointed indication, however, that confidence has not yet been restored in the stability of Brazilian institutions, and that something more than the 23rd November is required to place Brazilian stocks back where the revolution found them. However great may have been the disturbing influence of Gen. Deodoro's extraordinary *coup d'état*, this alone is not the cause for the decline. The failure of Congress to enact a law against the further inflation of the currency, the sterility of the last session in matters of finance, the deceptive character of the budget, the failure to consolidate the republic, the instability of the institutions which the country is supposed to have adopted, and the petty intrigues and quarrels going on throughout the whole length and breadth of the country—all these are noted and are having their influence on those who still hold Brazilian stocks. These matters may not be considered of very great importance here in Brazil, but to the average British investor they are full of significance. He knows that the paper currency of the country is depreciated by over one-half, and that it has been forced into circulation during the past two years in a most extraordinary manner. He justly concludes that the issue is excessive, and that the true remedy is to retrace the false steps thus taken. The inexcusable failure to do this on the part of men who professed to oppose the speculators who are largely responsible for the situation, must unavoidably arouse further suspicion on his part and compel him to feel that a return to sound financial ideas in Brazil is very doubtful. Add to this the continual disorders and intrigues in the states, the overthrow of the legal state governments, the disregard of all sound political principle manifested in these petty revolutions, and the continual meddling of military officers in civil affairs, and there is more than enough to unsettle the confidence of even the staunchest friend of the country. There are a considerable number of patriotic demagogues who affect to believe that this lack of confidence is due to intrigues of enemies. Let no one be deceived in this! The worst enemy Brazil can have is the man who would ruin her credit through ignorance, extravagance and dishonesty. And this is just what the demagogue is doing.

We should like to call the attention of the *Journal do Commercio*, and other Brazilian journals, to what may be called the non-administration of justice in Brazil. We are convinced that it is useless to appeal to the authorities, or to the law-makers, for they are as indifferent as they are incompetent. The only recourse, in our opinion, is for the press to take the subject in hand and to keep discussing it until something is done. If public opinion can be educated up to the point of demanding a better system and better administration than those which now exist, then there will be some chance for improvement, otherwise they will remain in their present deplorable state. It is all well enough to point out the evils which exist elsewhere and everywhere, but it is idle to do this without any other object than that of detraction. The blunders and abuses committed by others can be made to serve as object lessons to those who seek something better, but for those who nourish even worse abuses it would be better perhaps to maintain a discreet silence. Of the multitude of errors and abuses of which columns can be written, we desire to call attention now to one much needing reform—that of the police. We have repeatedly urged the organization of police courts, as an effective remedy against the outrages so frequently perpetrated by the police. Recent occurrences have demonstrated with more emphasis than ever the necessity of this measure. Arrests are constantly being made and innocent men are subjected to violence and imprisonment almost daily. If this state of things is to continue then the only remedy will be to resist arrest, at whatever cost. The recent experience of three young Englishmen, the indignities heaped upon them, and the brutal amusement derived by their drunken captors over the "lesson" they were giving the *ingleses*, will probably make the next lesson a little more difficult. If such treatment and a night in a filthy cell is to be the reward for quiet submission, then

the police will have to fight for their future diversions in that line. Of course such a fault will be very undesirable, but whose fault will it be? It is the duty of Brazilians to correct these abuses, and to do it at once; if they neglect the duty, then the consequences must lie at their own door. An educated man naturally objects to the treatment accorded to a dog, and no civilized people would seek to humiliate him in any such way. In addition to this, there is another police question which is becoming very important—that of repressing theft. The city is actually overrun with thieves and burglars, but no thorough effort is being made to capture and punish them. Robberies are committed in the street in open day, houses are broken into at night, and the hotels have become favorite haunts of the clever knaves who love to wear good clothes and figure as men of leisure and wealth. Recently there has been an unusual number of hotel robberies, but the proprietors do nothing and the police are indifferent. It is well known that the thief will be released after a day or two, unless his victim wishes to pay the costs of an uncertain prosecution, and no one cares, therefore, to waste any time over it. One cause of this is the extraordinary position taken by the authorities that the victim should prosecute and pay the costs. Under such a ruling, not one thief in twenty is punished. The only effective way to repress crime is for the state to prosecute, and there will be no real check upon thefts in this city until that is done. In this also the press can do a good work by agitation. No man's person and property are safe under existing conditions; it is the duty, therefore, of every good citizen to insist upon a reform.

STRANGERS' HOSPITAL.

The paid subscriptions for the foundation of the Strangers' Hospital now slightly exceed 95,000\$, with several subscribers still to hear from. Both of the new English banks have promised liberal sums but the amounts have not yet been fixed. In addition to this a large number of small subscriptions have been promised, but have not yet been secured owing to a lack of time. Enough has been secured, however, for the acquisition of the property and the first necessary expenditures on the building. The plans are now being prepared for these modifications in conformity with municipal regulations, and as soon as the necessary license is procured work will be begun on them.

The subscriptions thus far paid are as follows:

POLICE ASSAULT.

S. Paulo, 29th January, 1892.

To the Editor of THE RIO NEWS:

TRAN: "I am in case to justify a constable."

All hell shall sit for this "Ancient Pistol."

Sir,—I have read with attention the letter addressed to you by Messrs. McNaught, Barham and Templeton, and also that of Mr. Wm. Mayner; and quite agree with the last-named that the thanks of foreigners in Rio are due to you for your spirited article on the above subject.

It does not appear, however, that, as a consequence of these complaints, any action is likely to be taken in the direction of punishing the policemen for exceeding their duty, nor of indemnifying the sufferers.

Under these circumstances perhaps you will allow me to make a few remarks which occur to me on the matter.

Many Englishmen will, I think, agree with me that the indignation with which we regard the conduct of the two *prapas* who took our three countrymen into custody, is largely mingled with astonishment at the lamb-like patience displayed by the latter under their afflictions. Such meekness in conjunction with the rendering of the constable's garment, and the smiling of Mr. Templeton's ear, rather suggests the beginning of the first than the end of the nineteenth century.

No one will suspect for a moment that this forbearance arose from any want of courage on the part of the victims. They are, they inform us, in the service of the London and Brazilian Bank. That is sufficient. It is clear that they do not fear death. Had they been Athos, Porbos, and d'Artagnan, they could not have given more convincing proof of the fact.

But how came Mr. Templeton to allow his ear to be damaged without calling to mind the old Mosaic law and applying it to the case? The writer, for example, is possessed of a pair of ears of not much more than the average length, and, notwithstanding several years' residence in Brazil, and more than one unpleasantness with the police, he still preserves those ornaments intact.

He is not prepared to surrender even one of them without a struggle; and

"The *prapas* that reap it
Must fight like a man!"

or, which is much more likely, "like a monkey."

Neither the *urbanos* nor their chiefs are, as a rule, very robust. *Subdelegados*, however "braves," are usually persons of choleric-hysterical temperament, running a good deal to moustache, top hat, and pincenez, with a "weedy" tendency about the legs and shoulders; while their scowling, black-muzzled myrmidons are only formidable from their readiness, when in sufficient numbers, to use their dirks upon an unarmed man.

Why, therefore, accompany them to the bond—or any other—station, if you have a conscientious objection to do so; and thus abet them in what you consider an illegal transaction?

Let us have patience. We must bear in mind that we live under a despotism of irresponsible official amateurs with families to provide for. These gentlemen do not occupy the ignominious position of public servants; they are public masters. It is not their business to protect the public. It is their business to keep the public in an orderly and respectful frame of mind towards themselves.

Wherefore with great submission I venture to offer the following piece of advice to whom it may concern. When molested by that puff of wind in a brown holland suit, denominated an *urbano*, do not wait to have your nose slit, or your ear nailed to the pump; or to have old negroes' fists clapped on your head; do not write bitter and just complaints to the newspapers; do not put your trust in consuls, nor even lay your distressful case before Her Majesty's ambassador to Petropolis. You cannot have the British navy totting at your heels like a bulldog everywhere you go; and mere scolding is of no use.

Settle the matter on the spot. A few milreis will probably do it. If not, then Nature has provided you with arguments for your defence. Advance them; and having, so to speak, excluded one of any two *prapas* from the discussion, his *repte* will serve to point your remarks in reasoning with the other.

Some little time ago a small party of Englishmen, not in the service of any bank, were in trouble with some Zulu *urbanos* at a place called Rothe's Drift. Their chaplain, whose office forbade him to fire, but allowed him to pass the cartridges with which the debate was being carried on, was shocked by the volleys of profane language with which one of his flock supplemented those of his rifle, and admonished him in the following pithy terms, viz.:

"Don't swear at them, man; shoot them!"

There is a moral to this.

I am, Sir,
Yours truly,
Scot.

RIVER PLATE ITEMS.

—The maximum temperature at Montevideo on the 20th was 93.6° Fahr. That beats Rio, surely!

—The Uruguayan government has ordered Sr. Baza, minister to Brazil, to return to his post.

—The revenue of the Buenos Aires custom-house last year was \$49,424,880.95 against \$44,883,956.43 in 1890, both paper currency.

—The principal exports from Buenos Aires during 1891 were as follows:—1,610,963 dry and 1,322,111 salted hides, 82,425 various hides, 262,569 boxes of wool, 51,691 do. sheepskins, 2,734 do hair, 334,307 bales of jerked beef, 1,588,838 do, 182,374 boxes of preserved beef, 496,202 frozen sheep, 9,170 boxes of tongues, 537,869 bags of maize, 2,392,444 do wheat, 116,657 do linseed, 60,207 bags of linseed cake, 80,001 bags of seeds, 30,189 do flour, 46,480 cks. tallow, 3,493,816 horns, 61,259,612 ks. bones and bonese, 7,619 head of cattle, 55,827 live sheep, 3,636 horses.

—The detectives have succeeded in capturing three notorious thieves in the very act, on Thursday night, of carrying off a case of silver plate from the Barraca del Centro, into which they had broken. They are shrewdly suspected of other exploits in this line. Two of their associates unfortunately escaped. The names of those taken are Major, Matoreas and Braña, and they are well-known to the police here and in Brazil. *Montevideo Times*, Jan. 25.

—The state school teachers in Santa Fé are an unlucky lot. Rarely do they see a cent of their salary until years after it is due, and they have to live on air and music in the intervals. Now another crushing blow has fallen on them. The gentleman who received lately \$17,000 from the education board to pay them, spent the whole amount in gambling and hetaer-skelter living, and is now at some unknown bourn from which he is most unlikely ever to return. *Buenos Aires Standard*.

—The latest news from Corrientes is that another vendetta outrage has been perpetrated in that province. On the 31st inst. a band of men attacked the town of Itati. They surprised the prison-guard. Some four men shot down the Juez de Paz, and in a mild-mannered way proceeded to sack the place. The coolness with which the assassins, twelve in number, carried out their criminal plan is enough to make the hair of an Italian bandit stand on end. After a five hours pillage the plunderers withdrew with their pockets full of money. What seems most singular is that the inhabitants did not offer any resistance. So far from standing their ground, they fled to the neighboring hills! The plunderers were headed by the brothers Medina, and were armed with swords and rifles. When they finished sacking the place, they took a boat and crossed the river, and sought safety in Paraguay. The Corrientes government sent twenty armed men to capture the plunderers, but of course this amounted to nothing, as Medina and his men were gone. *Buenos Aires Standard*.

—We note in a Cordoba exchange the following story, which shows what pluck and presence of mind a gentleman named Perez and his wife had an estate on the Saladas where they lived very comfortably. The other day they sold some cattle and kept the money in the house, there being no bank within leagues of the place. That evening, as they were sitting down to dinner, two bandits entered the house, seized Mr. Perez and tied him down. They then called upon the wife to give them the proceeds of the sale of the cattle. The brave lady did not flinch or scream. She kept her presence of mind and said she would give up the money, provided her husband's and her own life were spared. The bandits consented. She then told one of the villains to follow her into the next room, where there was a trunk. She opened the trunk and in the darkness managed to take out a revolver without attracting the bandits' attention. Pointing to the opened trunk she told him he might take out all the money. The fellow immediately set to, but the brave woman leveled a revolver at his head and blew out his brains. The other villain hearing the shot came rushing up, but seeing his comrade dead on the floor, and the lady with a revolver in her hand he bolted. The brave lady then released her husband, and both went to the nearest police-station to relate the affair. *Buenos Aires Standard*.

A subsequent item of information in regard to this affair says that the dead husband turned out to be the public prosecutor of the district!

—Mr. Mellon Prior, the correspondent and artist of the *Illustrated London News*, was welcomed on 'Change to-day, and had been the Shah of Persia, or the Mikado, he could not have expected a more hearty and royal welcome from brokers, merchants, dealers, connoisseurs, artists, the sharp, eagle countenance of the English German, and the soft meditative line of the fashionable Argentine dealer. There was a mad and a scramble as he penned the immaculate paper and people in the Calle Préal outside, as they heard the terrible uproar, trembling, thinking the revolution had at last burst in the Bolsa; the very policeman at the corner whistled for help, but the Englishman subsided as the latest artist emerged from the hall with a sketch of the Central square, amongst whose subjects we may recall the price as well as many other friends in Lombard street. We have seen many sorts and conditions of men welcomed on 'Change in the last thirty-two years, but never have we seen such a popular welcome extended as today, and the recipient of honors was surprised and much affected at the scene; he will agree with everybody in this market that the Buenos Aires Bolsa broker is the most polished and most attentive of his kind in the world. *Buenos Aires Standard*.

—On Wednesday last the pacific townspeople of Olavarría were thrown into such alarm by the arrival of a suspicious pack of individuals, that they locked their doors and remained in their houses. The individuals in question looked anything but gentlemen. In fact they looked something like a Sicilian bandit and a "pancho man." They strolled through the deserted streets of the town and posted themselves near the town hall. This circumstance awakened the suspicions of the proprietors, who hastened to conceal themselves in the cellars of their neighbors' houses. The occupation of course could not meet under these painful circumstances. The same day the local mayor received several anonymous letters calling on him to resign. The local police took up a strategic position on the roof of a house. It is doing a respectable trade, such things should take place in a civilized country, and it is impossible to be deplored that these incidents are quite common. Armed men are prowling about in the sierras near Tandil, waiting for the devouring monster, which has evidently not yet arrived. But Buenos Aires is not the only province where "armed men" are doing a respectable trade. Santa Fé suffers from the same complaint. The other day the bodies of three enemies were found with their throats cut, and inquiries showed that the three men, who were

brothers, had started in pursuit of a detachment of bandits who had stolen their cattle. The bandits are supposed to be headed by a police official. The national government ought to send up a few *Krupps* guns to blow the rascals over the moon. *Buenos Aires Standard*, Jan. 19th.

From the *Enferme Aires Standard*.

ARGENTINE REVENUE IN 1891.

The annual returns published yesterday confirm our predictions of a year ago, that the finance minister's estimates would prove to be of a visionary character. The total revenue to Dec. 31st reaches \$71,500,000 currency, equal to \$19,200,000 gold, whereas the minister's estimates were \$29,000,000 gold. The estimates compare with actual receipts thus:—

	Estimate	Receipts
	\$ gold	\$ gold
Customs (gold) ..	\$23,000,000	14,800,000
Sundries " ..	7,000,000	4,400,000
Total	29,000,000	19,200,000

The minister's estimates were exactly 50 per cent. too high, and we may expect a similar result in 1892.

In the preceding table gold is taken at 372 (the average quotation for the year having been a fraction under 373), and at this rate the expenditure for 1891 will be found as follows:—

	\$ gold
Interior	10,260,000
Foreign Affairs	550,000
Finance	3,310,000
Education	1,650,000
War	2,450,000
Navy	1,500,000
Total	19,810,000

Hence it appears that the deficit was only \$600,000 gold, which is a better order of things than before.

It is clear, however, that the estimated surplus of \$15,000,000 currency which the government expected, in order to burn that amount of shipmaster notes, was purely imaginary.

PROVINCIAL NOTES.

—The dictator of S. Paulo has dissolved the legislature of that state.

—Visconde de Pelotas has been induced by his friends to return to public life.

—Over 100 men have recently been at work on the new cemetery at Santos. It is full time.

—It is announced in S. Paulo that the salaries of the post-office employees there have been increased 50 per cent.

—The town of Rio Claro is again afflicted with an epidemic of fever. Something must certainly be wrong in that place.

—The number of messages sent from the central telephone station in Para, from June to December, inclusive, was 284,268.

—The municipal government of Campinas is going to establish butcher shops for supplying the people with meat at reduced prices.

—Dr. Antonio Luiz Affonso de Carvalho, who was minister of justice in Gen. Deodoro's last cabinet, died in Bahia on the 25th ult.

—It is stated that the governor of Bahia refuses to recognize the chief of police appointed for that state by the general government.

—The dictator of Amazonas has deputed the lieutenant-governor of the state, the president of the state legislature and other prominent persons.

—The election for the new state legislature of Pernambuco will be held on the 21st inst., and that for the legislature of S. Paulo on the 1st prox.

It seems that the fortune left by Dr. Martinho Prado proves to be larger than was at first supposed. It is now estimated at 25,000,000\$000.

—Col. Eufrosio Dias has been relieved of the command of the 16th battalion of infantry stationed at Bahia and ordered to report for duty at Manaus.

—In Bahia a meeting of state legislators is to be held for the purpose of taking into consideration the appointment of a chief of police for that state by the federal government.

—On the 25th ult. an election was held in Paraná for governor, two lieutenant-governors and five members of the state legislature. The candidates of the Junta Governativa were elected without opposition.

—Macaé Thayer Fraaiho has obtained an exclusive privilege for 20 years for making alligator oil and tanning alligator hides. We fail to understand why the privilege was not made to cover catching alligators as well.

—Gen. Enrique Jacques, who some time ago went from Pernambuco to Ceará with a cruiser and 60 soldiers, has imitated the King of France and marched back again. Still we do not advise Gov. Clarindo to relapse into a feeling of careless security; eternal vigilance is the price of his gubernatorial chair.

—It is stated that Visconde de Pelotas has asked, on the plea of bad health, to be relieved of the command of the 6th military district and that Gen. Barreto Leite, governor of the state of Rio Grande, of which that district is composed, will be appointed in his stead.

—Gens. Glycerio and Campos Salles seem to have learned nothing in adversity. They are again carrying matters with a high hand in S. Paulo, just as they were doing when Barão de Lucena surprised them last year by appointing Dr. Americo Braziliense governor of that state.

—The American corvette *Concord* reached Bahia on the 28th, en route for Chili.

—A solemn mass for the late Emperor was celebrated at Pernambuco on the 28th ult. at the Boa Vista church, which was richly adorned for the occasion. The bishop officiated at the ceremony which was attended by many public officials, by consuls, by the clergy, and by large concourse of people. At the request of the Associação Commercial business houses closed their doors.

—The *Diario Popular* of São Paulo announces that the difficulties encountered in collecting amounts due for inserting paid articles (*publicidade*) compels the adoption of a rule to insert only such articles as are accompanied by the cash. It may be added that others are experiencing the same difficulties. There is a very general disinclination everywhere to pay accounts. It may almost be termed a national characteristic.

—The story is told of a recent burial in Santos, where it cost over 200\$ to hire a cart to carry the remains to the cemetery. When the party arrived there it was found closed and it was not only necessary to send out after the sexton, but also to hunt up laborers to dig the grave. In digging the grave the laborers came upon another coffin, but the sexton ordered them to throw it out upon a heap of rubbish, saying it was quite a common occurrence. This incident is referred to those who talk so much of *nossa civilização*.

—A telegram of the 28th ult. from S. Paulo states that on that day Dr. Luiz Pereira Barreto sent a message to Dr. Cerqueira Cesar, president of the state, advising him to resign, as on the following day a revolution would break out in S. Paulo and other states. This message was carried to the president by Congressman Domingos de Moraes, to whom Cerqueira Cesar replied that he would await the revolutionists at his official residence. The president gave orders for the troops at his disposal to be held in readiness and ordered the arrest of Dr. Luiz Pereira Barreto and others. The latter afterwards explained that he wished to prevent the effusion of blood and thought that the resignation of Dr. Cerqueira Cesar would have that effect. He was released from custody and is under orders to appear when called for. It is thought that a "loose file" is the cause of the scare.

—A telegram of the 28th ult. from Porto Alegre says that on the previous day the acting commanders of the 13th and 30th battalions of infantry demanded of Barão de Batovi, commander of the military district, that he should disarm the two volunteer battalions, "Bento Gonçalves" and "Ernesto Ayres." It appears that Barão de Batovi objected, but the volunteer battalions were finally disarmed and the Barão, on the plea of bad health, transferred the command of the district to Visconde de Pelotas. On the 28th the officers at Porto Alegre held a meeting to deliberate on the best means of keeping the military from meddling in politics, and it was decided that the troops should be concentrated. Visconde de Pelotas, adopting the idea, telegraphed to the government soliciting approval and received authorization for establishing a camp for field maneuvers at Saycan. The officers of the garrison called on the Visconde, who is said to have made them an energetic address. The same telegram states that there is some talk of deposing the governor, who vows that he is ready to die at his post.

IMMIGRANT ARRIVALS AT SANTOS.

According to a recent official report the immigrant arrivals at Santos during the last ten years were as follows:

1882	2,743
1883	4,912
1884	4,998
1885	6,500
1886	9,536
1887	27,689
1888	74,477
1889	17,823
1890	27,893
1891	86,754

Total

Of these 202,593 were Italians, 25,925 Portuguese, 14,954 Spanish, 6,196 Germans, 4,118 Austrians, 3,315 Russians, 1,922 French, 1,042 Danish, 983 British, and the remainder of diverse nationalities.

RAILROAD NOTES.

—The laying of the track on the Caxias railway in Maranhão was commenced on the 23th ult.

—The continual delays in the running of trains on the Central railway is causing much complaint. The S. Paulo express is nearly always late.

—It was announced on Saturday that the landslide on the *terra* section of the Central line had been removed, and that traffic had been resumed.

—We are advised that there are 500 boxes of kerosene oil in the Central railway station at this city, notwithstanding the municipal regulations. Is the government excused from observing the law which is so rigorously enforced against the private citizen?

—A São Paulo telegram of the 28th ult. says that the S. Paulo company is about to establish a fast train between Santos and that city. This action will be of inestimable benefit to the plague-stricken business men of Santos, as it will enable many of them to live in S. Paulo. The actual time between the two places will be two hours.

—An accident occurred on the *terra* section of the Petropolis railway yesterday morning. The pilot left to no serious results. The axle of the Baldwin locomotive, "Godoy" broke, causing considerable alarm among the passengers. It is charged by some that the locomotive is unsatisfactory, and by others that the driver is negligent and does not take proper care of his machine. In all probability the last reason is the true one.

—The *Journal* of the 31st ult. devotes a column or more, to a reproduction of the *Fortnightly Review's* adverse criticism on the administration of justice in the United States. The editor of the *Journal* must know that such generalizations are most unjust. The man who says that there is no judge without his price and that the administration of justice in the United States is a scandal for the human race, shows too much animus for such a criticism. Those who know the facts, know also that his statements are

MARKET REPORT.

Rio de Janeiro, 1st February, 1892.

Exports.

COFFEE.—We have had a fairly active week, the last three days showing sales of nearly 100,000 bags, and prices were advanced on Saturday by about 400 s. per arroba on all qualities. Sales of upwards of 100,000 bags are also reported at Santos. Heavy rains along the Central railway line have further interfered with traffic; there has been no entire interruption, but quite sufficient to reduce the receipts by the line to about 25,000 bags for the week; a very disappointing occurrence, with the uncertainty in the exchange market. Shipments have been satisfactory, 53,000 bags for the week, and stocks are reduced by about 65,000 bags. As the close on Saturday there was supposed to be business still pending, but dealers were very firm in their pretensions and its realization depended largely on how exchange is to rule to-day.

The shipments since our last report have been:

75,532	bags for the United States
6,124	" Europe
11	" Cape of Good Hope
3,015	" Elsewhere

81,522 bags.

Receipts for the past week were 75,111 bags, against 69,563 bags for the week before and 73,181 bags for the preceding week. Receipts in Santos were about 65,000 bags, for five working days.

Stocks were this morning estimated to be 224,353 bags in all hands, of which perhaps one-half is awaiting shipment.

The market is now at the following quotations:

Imports.

We have had another quiet week, with only slight changes in quotations and moderate receipts. Flour is reported to have been fairly active and quotations are rather lower, except for city mill flour, for which former prices are asked, but without much response from purchasers. A small cargo of Swedish pine has arrived to a dealer; the markets are about unchanged and steady. There have been no receipts of Kerosene and only insignificant of Lard; quotations for the former are slightly lower, and those for the latter are unchanged. A cargo of Rice from Rangoon has arrived, and which was wanted, for dealers were very firm in their ideas, as stocks were becoming reduced. There have been no changes of note in the other articles we quote. Exchange has been irregular, and although the fluctuations have not been violent, yet they disturb business, which is largely done at present on a gold basis.

Flour.—Receipts are 3,500 bbls. per *Fluante*, from the United States, to dealers.

Stocks in first hands are still estimated at only 1,500 bbls. but the market is reported to have been fairly active, at slightly lower quotations for foreign flour; the mills are still asking old prices, but importing dealers appear to be under-selling them.

Brokers quote as follows, viz:

River Plate	29 750—30 000
City Mills	30 000—30 000

Pitch Pine.—There have been no receipts and the market is unchanged and firm at 74 500—76 000 per do.

White Pine.—Receipts nil. Quotations remain at 220—240 rs. per foot, at which the market is reported firm.

Swedish Pine.—Receipts are about 700 tons. per *Fluante* from Carlshamn. The market is about unchanged at 47 500—48 500 per doz. for red and 46 500—47 500 for white deals.

Spruce Pine.—Nothing to report.

Kerosene.—Receipts nil. Brokers quote at 24 500—25 500 per case and the market is reported firm.

Lard.—The only receipts are 150 bags per *Fluante*. The market is steady at 220—240 rs. per lb. for *Fluante*'s lard, in lots, with other marks quoted at 200—220 rs.

Rice.—The *Kylenore*, from Rangoon, brought 25,000 bags, which were needed. Dealers are quoting at 17 500—18 500 per bag, and the market is firm.

Codfish.—Receipts are 45 cases per *Fluante* from New York, 50 bbls. Cannon, 5 cases and 250 cases Norwegian per *Fluante*. The demand continues fair and the market is steady, with a stock of about 3,000 packages, at the following retail quotations, viz: Canadian tins 38 500—40 500, barrels 35 000—38 000 and Norwegian cases 42 000—45 000.

Brat.—City mills is quoted at 48 000—49 000 per bag. There have been no receipts of foreign.

Indian Corn.—There are still no receipts from the River Plate, for which quality 48 000—49 000 per bag is quoted. Receipts of native corn are only moderate and quotations are 58 000—60 000, according to quality.

Hay.—Receipts are 1,000 bales from the River Plate. We may quote to-day at 120—130 s. per kilogramme.

Turpentine.—The *Fluante* brought 110 cases from New York. Quotations are unchanged at 500—520 rs. per kilogramme.

Rosin.—Receipts nil. Brokers still quote at 118 000—120 000, according to marks.

Coal.—Receipts since our last report have been:

2,355 tons	per <i>Grace Harwar</i> , from Cardiff
2,585 "	" <i>Stormy Petrel</i> , do
1,157 "	" <i>Alcatraz</i> , do

All to dealers and companies.

Cement.—Receipts nil and quotations are unchanged at 118 000—120 000 for British, 120 000—122 000 for German and 118 000—120 000 for French, per bbl.

A Tonic

A most excellent and agreeable
tonic and appetizer. It nourishes
and invigorates the tired brain
and body, imparts renewed energy
and vitality, and enlivens the func-
tions.Dr. JAMES BLACK, L. R. C. S., Primrose
Hill, Cockburnspath, Scotland, says: "As
a nerve tonic, I know nothing like it. It
gives me great satisfaction."Dr. THOMAS DAVIDSON, L. R. C. P. & S.,
Gosforth, Newcastle on Tyne, says: "I find
it an excellent tonic in cases of mental
anxiety induced by over-study in clergymen
and others."Descriptive pamphlet post-free on application to
